

“The tracking tool really helps the students monitor and plan their progress ... From the teachers side of things, marking is so simple and internal verification takes half the time that it used to.”

Curriculum Team Leader for Sport and Public Services, Portsmouth College

“It has proved invaluable when integrating new members of staff with course delivery ... It is really helpful that assessment evidence for external verification is accepted and shared through The Brain.”

Head of PE, Clayesmore School

REDUCE WASTE

Reduce your carbon footprint and eradicate paper and printing costs by replacing paper with online resources that engage learners and support educators.

SAVE TIME

Organise and streamline administration processes from submission of assignments to External Verification 80-100% faster than traditional methods*.

TRACK PROGRESS

Monitor student progress with live group and individual data tracking and learner activity/engagement tracking functionality.

ORGANISE

Set assignment hand-out and hand-in dates; and Internal Verification sampling schedules at the click of a button to auto-populate student assessment plans.

ENGAGE

Pre-loaded with learning and assessment resources presented in an accessible format ideal for extension & independent tasks. Users enjoy 24/7, device-led access.

MANAGE

Streamline quality assurance processes. Promote communication and understanding of learner progress and assessment status between course educators.

SCALE

No minimum or maximum user license restrictions. Simply request more user licenses as and when required and manage growth with ease.

FREE SUPPORT

Receive full training and continued support throughout the lifetime of the qualification.

* Based on a survey of 22 user educators.
