

# Let The Sport Brain™ do the work for you

*An innovative online learning platform*

**SAVE TIME**

Organise and streamline administration processes from submission of assignments to External Verification 80-100% faster than traditional methods\*.

**TRACK PROGRESS**

Monitor student progress with live group and individual data tracking and learner activity/engagement tracking functionality.

**ENGAGE**

Pre-loaded with learning and assessment resources presented in accessible format, ideal for extension and independent tasks. Users enjoy 24/7 device led access.

**REDUCE WASTE**

Reduce your carbon footprint and eradicate paper and printing costs by replacing paper with online resources that engage learners and support educators.

**MANAGE**

Streamline quality assurance processes. Promote communication and understanding of learner progress and assessment status between course educators.

**ORGANISE**

Set assignment hand-out and hand-in dates and Internal Verification sampling schedules at the click of a button to auto-populate student assessment plans.

**SCALE**

No minimum or maximum user license restrictions. Simply request more user licenses as and when required and manage growth with ease.

**FREE SUPPORT**

Receive full training and continued support throughout the lifetime of the qualification.

"The tracking tool really helps the students monitor and plan their progress and from the teacher's side of things, marking is so simple and internal verification takes half the time that it used to."

**Curriculum Team Leader for Sport and Public Services, Portsmouth College**

"It has proved invaluable when integrating new members of staff with course delivery, it is really helpful that assessment evidence for external verification is accepted and shared through The Sport Brain™."

**Head of PE, Clayesmore School**

## Berlin Brandenburg International School

### Lisa Johnson, Head of Physical Health Education

With 700 students, the school has a number of BTEC courses as part of its career-related programme. The Sport Brain™ has supported them by simplifying the administrative process and establishing a sound structure for the programme.

"The Sport Brain™ has helped us to establish the structure of the programme and by supporting the assessment guidelines, in accordance with the awarding body. We have saved hours of time in planning, preparation and printing and we estimate saving around 3 to 4 hours work per assignment, which was previously spent on paperwork.

The resources within the learning cloud can be a useful addition for experienced teachers and provide guidance and support for those who are less experienced. We have saved money by eradicating the need for a large number of textbooks, in addition to reducing time spent on marking.

The Internal Verification process is supported as the system speeds up the process and alerts with notifications. The software offers a very straightforward process which works in line with BTEC guidelines."

#### The student view:

"The Sport Brain™ supports students by helping them organise and keep on top of their work. They are able to access their studies from around the world, giving them the ability to complete their work with solid support away from school."

## Swindon Academy

### Chris Oke, College Leader and Enrichment

Swindon Academy offer a variety of subjects under their vision of a challenging curriculum. Virtual Education Systems are proud to provide The Sport Brain™ as an asset to the PE Department, which has supported students and teachers to succeed in BTEC Sport over the last two academic years.

"The Sport Brain™ is the most fantastic piece of software available to us, it supports teaching, learning and progress and is a real asset to the PE Department.

The Sport Brain™ has saved hours in marking assessments and monitoring progress of the learners as well as huge cost savings within the PE department on printing and photocopying. We can also manage IV and SV demands easily. All in all both students and teachers really enjoy using The Sport Brain™, an excellent product."

#### The student view:

"I like the structure of The Sport Brain™ as everything is there for me, lessons and assessments. The function that I really enjoy is the progress page, I can see what assignments I have completed and those that I still have outstanding."
